COPYRIGHT STATEMENT

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted materials including foreign works under certain conditions. In addition, the United States extends protection to foreign works by means of various international conventions, bilateral agreements, and proclamations.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

The Columbia University Libraries reserve the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of the copyright law.

MILL OPERATING RATES

SEP 17 1953 BB

The attached sheets show

a - Actual paper and paperboard production and fibre consumption fourth quarter 1943.

b - Reported mill operating rate fourth quarter 1943.

c - Actual paper and paperboard production and fibre consumption first quarter 1944.

d - Reported mill operating rate first quarter 1944.

e - Estimated fibrous materials required for four day operating rate at non-integrated mills.

f - Estimated fibrous materials required for 100% or six day operating rate at all mills.

g - Actual paper and paperboard production and fibre consumption second quarter 1944.

h - Reported mill operating rate second quarter 1944.

The operating rates reported on these pages represent the percentage of six (6) day twenty four (24) hour use of all machines not permanently shut down.

Note:
* Estimated Operating rate
** Estimated Fibrous Material Consumption
